## Welcome to Socious! The Oral Health Progress and Equity Network Community Platform

OPEN, the Oral Health Progress and Equity Network is a national network of individuals and organizations that believe **oral health is essential to overall health and wellbeing** and is organizing across the country to ensure that fact is widely understood and embraced. By focusing on early access and prevention for children, care and coverage across the lifespan, ensuring that oral health is integrated into our overall healthcare, and creating a new social norm for what it means to be healthy, we are building an environment in which all individuals can thrive.
